

Allevo to provide open-source financial transactions processing application

Agenda

- 1 Setting the scene
- 2 What's in for Allevo?
- 3 What's in for the customer?
- 4 Wrap-up

Setting the scene

mentor

trust

**It's even better with
open source**

community

product

What's in for Allevo?

- Latest technologies and recurring updates shared in the community
- Freeing up resources for innovation
- Increased sales in ancillary areas that are business related, like
 - bank's treasury
 - corporate or retail customers service

Captive to
own product

What's in for the customer?

- Lower dependency on ISV
- If active part of the community - cost sharing for both new developments and recurring software maintenance
- Lays the ground for true competitive advantage, by tuned implementation of the customer's business architecture
- Cost savings

Allevo is going to:

- Invest in tools and qPI readiness for openly share the source code
 - The qPI core & selected features
 - Maintain & enrich qPI certification with SWIFT
 - Planned availability: Sibos 2013
- Invest to create the community
